CLIENT ALERT

DEPARTMENT OF LABOR'S NEW OVERTIME RULES: WHAT NON-PROFITS NEED TO KNOW

A Webinar

With Attorney Paul Holtzman

Thursday, October 6, 2016

1 p.m. - 2 p.m.

Registration information below

As one of our non-profit clients, we thought you might be interested in the following free webinar.

Overtime regulations have moved well beyond the familiar “salary level test,” and new requirements will make 4.2 million more full-time workers eligible for overtime pay. For non-profits, with many staff members earning less than \$47,476 annually, preparing for the new requirements is essential. Failure to comply can mean serious liability for your organization.

During this short webinar, attorney Paul Holtzman of Krokidas & Bluestein will cut to the core of what you need to know to be prepared:

- Overview of the law, the changes and what they mean
- How to adjust your existing policies and procedures to meet the new regulations
- Addressing potential challenges (from new systems for tracking and reporting on hours to communicating with employees about the change)
- An open Q&A period will also allow Paul to respond to your questions in real-time.
