Paul Holtzman Discusses Harassment Policies:

Miramax/Harvey Weinstein Sexual Harassment Scandal
And Company Policy

We thought this Radio Entrepreneurs broadcast with attorney Paul Holtzman would be of particular interest to you. Krokidas & Bluestein partner Paul Holtzman was interviewed on the implications of the Harvey Weinstein sexual harassment scandal for employers' harassment policies and practices.

The Weinstein scandal serves as a reminder for all organizations to have in place a solid process for responding when allegations of harassment or discrimination are made. Among the lessons learned is that no organization can afford to ignore or sweep under the rug credible allegations of misconduct. When senior leadership is the subject of a complaint, boards are well advised to bring in outside counsel to conduct a thorough investigation and recommend appropriate remedial steps.
