

**Maria Krokidas pictured with Cheryl Kane of Dorchester, Director of Development and Street Nurse for Boston Health Care for the Homeless, at the “A Home of Our Own” fundraiser.**

*Since 1985 Boston Health Care for the Homeless Program has bridged the distance between mainstream health care and Boston’s homeless women, men and children by providing comprehensive health care services in sites as diverse as Mass General Hospital and the crawl space underneath the “salt and pepper bridge.”*

*Krokidas & Bluestein represented Boston Health Care for the Homeless Program in the development of Jean Yawkey Place, BHCHP’s new facility which will unite under one roof primary care, dental and mental health care, a pharmacy and an expanded inpatient care unit.*
