We thought the following webinar sponsored by the Massachusetts Charter Public School Association (MCPSA) would be of particular interest to our charter school clients. Krokidas & Bluestein Partner, Elka Sachs and Law Clerk Allison Belanger will present this webinar.

One year after the School Discipline Law took effect, schools should review their implementation of the law to make sure that their processes and procedures are compliant. This webinar is designed to review the law and strategies to ensure compliance. A Q & A period is included for additional clarification on those aspects of the law that may be of concern to your school.
